- 1) Provide the actual dollar amount representing the total revenue for the latest twelve months available to provide telecommunications service to Arizona customers, adjusted to reflect the maximum rates that Global Crest has requested in its tariff. This adjusted total revenue figure could be calculated as the number of units sold for all services offered times the maximum charge per unit.

For the period January 1, 2001 through December 31, 2001, the total revenue for the State of Arizona is \$26.58.

- 2) Provide the total actual operating expenses for the same twelve months as in #1 to provide telecommunications service to Arizona customers.

The Company does not have any operating expenses for the period January 1, 2001 through December 31, 2001.

- 3) Provide the book value (original cost less accumulated depreciation) of all Arizona jurisdictional assets used to provide telecommunications service to Arizona customers at the end of the same twelve months as above. If the fair value of those assets is different than the original cost net book value, also provide the corresponding fair value amounts. Assets are not limited to plant and equipment. Items such as office equipment and office supplies should be included in this list. If the actual value of all assets is zero, please specifically state.

The Company does not have any jurisdictional assets in the State of Arizona.
